

Fruit Sorting Technology

Tarend specializes in the development and production of machines for the fruit packing industry. Main products are electronic sorters, roller sizes, box and bin fillers, packing tables, washing and waxing units, drying tunnels, inspection tables, drenchers and many others.

Besides stand-alone machines, Tarend supplies complete sorting and packing lines. Customized layouts are prepared for each customer according to their needs and building dimensions. Every project includes detailed layout, technical specifications and price quotation. Manufacturing process is completed according to decided properties and complete line is delivered to the customers facilities as turn-key projects.
